

Paul Romero Alvarado

Passionate IT and digital transformation professional, experienced in designing and managing innovative digital solutions for industrial challenges integrating Industry 4.0 enabling technologies, with diligence in applying agile methods and digital strategies to lead successful projects.

EXPERIENCE

CENTOP, Babahoyo: IT Technician

November 2022 - February 2023

- Manage and administer the maintenance ticketing system to ensure effective communication and timely resolution of reported issues.
- Perform preventive maintenance to ECU 911 cameras, including their respective data and network connection cabinet, ensuring optimal and reliable operation of the video surveillance system.
- Prepare detailed monthly maintenance reports, documenting activities performed, results obtained and recommendations to improve the efficiency and performance of equipment and systems.
- Efficiently organize the work space, including the area of tools and technical equipment, to ensure a safe, clean and orderly environment, thus facilitating the execution of tasks and the quick location of necessary tools.

Prefectura de Los Ríos, Babahoyo: TIC Department

December 2020 - March 2021

- Infrastructure management and IT support to ensure the efficient operation of IT systems.
- Provide technical support and perform preventive and corrective maintenance tasks on computers to maximize performance and minimize downtime.
- Proactively identify and resolve network issues to ensure stable and secure connectivity, minimizing downtime.
- Configure network equipment, ensuring robust architecture and optimal functionality to ensure smooth and secure communication between systems.

SKILLS

Technological adaptability

Innovation orientation

Teamwork

Learning capacity

Adapting to change

COURSES

Leadership - City University
Miami (2022)

Fundamentals of
communication - LinkedIn
Learning (2022)

Economics and
entrepreneurship in idea
generation - UTPL (2021)

CCNAv7: Bridging - Cisco
Academy (2021)

Safe navigation and mobile
security - ESET Academy
(2020)

Data Sciences with Python -
E-Learning (2020)
